Dear Sir:

Applicant notes, with thanks, the Examiner's allowance of claims 1-10 and 17-20. In the Examiner's Reasons for Allowance, the Examiner notes that claim 1 includes several means-plus-function elements. The Examiner states that claim 1 is allowable over the prior art "for being directed to a combination of claimed specific elements as indicated above." Applicant believes that all claims indicated as allowable are

patentable. Furthermore, other distinctions between one or more of the claims and the cited art, in addition to the Examiner's reasons for allowance, exist. Finally, Applicant notes that each of the cited means-plus-function elements individually distinguish over the cited art.

Respectfully submitted,
